

REMARKS

Claims 1-54 are pending in the application, where claims 43, 48 and 53 are independent. Claims 1-42 have been cancelled. All claims stand rejected. Independent Claims 43, 48, and 53 are currently amended herein.

Examiner Interview Summary: Examiner Preston and Attorney Of Record Stallion discussed the current amendment to the independent claims adding the language "without use of a form or template construct" distinguishing over the primary reference U.S. Patent Brown '652. Attorney of record asserted the Brown does not teach or suggest this limitation, which is currently added by amendment herein. Attorney of record also asserted that Brown does not teach or suggest the limitation of "applications executed at runtime".

The Applicant currently amends independent claims 43, 48 and 53 adding the limitation "without use of a form or template construct" as discussed and asserts that this limitation along with the runtime execution limitation distinguishes over Brown, which is not a runtime execution construct and further teaches the use of form types as discussed at Col. 9, Lines 55 - 65.

The Applicant asserts that the claims as amended are in condition for allowance and respectfully requests that the claims as amended be allowed to proceed to issuance. If any issue regarding the allowability of any of the pending claims in the present application could be readily resolved, or if other action could be taken to further advance this application such as an Examiner's amendment, or if the Examiner should have any questions regarding the present amendment, it is respectfully requested that the Examiner please telephone Applicant's undersigned attorney in this regard.
